of Governmental Institutions is 3

of Governmental Institutions Research Centers is 1

of Non-Governmental Institutions is 1

of International Organizations is 1

of Universities Research Centers is 1

Preliminary Results on User Assessment Survey

All the institutions thought that the website content is very useful

Most institutions are interested in the Documentation and Institutions theme

Most institutions want to contribute as both Reader and Writer of the EMWIS NFP website content, to be done on quarterly basis

Most institutions thought that Scientific Sector would benefit most of the EMWIS information services whereas the National Authorities came in as a second priority

Most institutions thought that water managements tools is the most important regional information on water, project reports water and water technologies and financial instruments equally came in as a second priority

Almost all institutions are interested in participating in thematic forums
